Got That Feeling

Skywave

Got that feeling luck is just a little of it
I got that feeling
I can't stop winning, stop winning
A to Z, look what you're missing
As we speak your number's rising
Take a peak, there's just enough to go around
Get a piece, your own little piece of hell
Get it get it get it, go
Get it get it get it, go
Get it get it get it, go
Got that feeling loving every minute of it
I got that feeling
I can't stop winning, stop winning

Have a drink a pot of coffee, cannot think
Too many friends here, just an inch
Between striking out and striking rich, just a risk
One I'll take and take again
Get it get it get it, go
Get it get it get it, go
Get it get it get it, go
Got that feeling, gotta bet a little of it
I got that feeling
I can't stop winning and start living
Stop winning and start living
You can't borrow tomorrow
