

Costa Rica

[Kristin Hersh](#)

Eyes in the back of your head
Ear to the ground Love in the back of your mind
We're on a hill
Stay very still I would love a better drug You lucky jerk
You lucky jerk I'm so unsettled, I'm superstitious
You're so rattled, you're suspicious You lucky
You lucky jerk You left your lion on a beach in Costa Rica
It wasn't tame I caught us kissing on a plane in California
It wasn't tame, but just the same I would love a better drug You lucky jerk
You lucky jerk
