Cloud Aura

[Charli XCX](#)

Chorus:
Baby what hurts the most is when you become so cold
Youre starting to hurt my heart, you left me here in the dark
Now I got to think a change, I dont want to see your face
Im starting to hurt so hard, huh, youBrook Candy
We were on some Bonnie & Clyde shit
Kept the once row, always let you take the first shit
When the feds caught us I said I would take the rep
Cause I knew it aint easy livin live in the trap
I was the Queen B, you were my Jay Z
The only one who held me down when I was f*cking crazy
Ivonne and Trump, shit we coulda ran the world
You were my Chris Brown, I was your only girl
Let you put your feet up while I was cooking you breakfast
Thought I found my rider, yeah but now we just regret shit
Log into your email cause I knew that shit was wrong
Climbing up a private Whoto of a bitch showing her thong
And I look a lil closer its my home girl Lisa
Time to terminate shit, hasta la vista
Married to the mob so I put a hit on it
Candy youre my right, then you took a shit on itChorus:
Baby what hurts the most is when you become so cold
Youre starting to hurt my heart, you left me here in the dark
Now I got to think a change, I dont want to see your face
Im starting to hurt so hard, huh, you
Oh ohNow Im a f*cking shita
Apply it to your pick-up
And drive a super sonic, crush and burn it with my sister
No I dont need a mister, a sorta baby sitter
Im never going down, its easy to resist you
You broke my heat
And Im never gon forget this
You broke my heat
And I am coming back to get you, dont you knowChorus:
Baby what hurts the most is when you become so cold
Youre starting to hurt my heart, you left me here in the dark
Now I got to think a change, I dont want to see your face
Im starting to hurt so hard, huh, you
Oh ohChorus:

Baby what hurts the most is when you become so cold
Youre starting to hurt my heart, you left me here in the dark
Now I got to think a change, I dont want to see your face
Im starting to hurt so hard, huh, you
Oh oh
