

Gold

Beckah Shae

What don't kill you can only make you stronger!
I've taken a few blows, but I'm ok though,
You know I just keep going!
I've been straight knocked down, but I get up again,
'Cause I ain't no quitter!
So let me take this time to be thankful,
For the way I've been made stronger!

CHORUS:

Going through the fire, but coming out gold!
Going through the fire, but coming out gold!
And I'm going higher with my feet still on the floor.
Going through the fire, but coming out gold!

What don't kill you can only make you stronger!

Pushed back, pushed down, pushed away, it's ok,
'Cause I just keep movin' forward!
Talking smash all that trash that they say,
It just ain't worth my consideration no.
So I'ma take this time to be thankful,
For the way I've been made stronger!

{CHORUS}

So I'ma take this time to be thankful,
For the way I've been made stronger!

'Cause I can take the pain, it's for my good anyway,
'Cause I ain't gonna break, love holds me together.
This fire is making me better, refined and it don't matter whether,
I'm lookin' like a loser, 'cause I'ma show you all a winner!
You can have it all, 'cause I'm a giver,
But ain't givin' up, I ain't no quitter!
So I think it's better off you know, I'm comin' out gold!

{CHORUS}
