

Ilya

Irakere

Tell [Incomprehensible] baby, I've been waiting
For so long I want it over
It's pleasant waiting, it's pleasant hating
Placenta fed, get out of my head
Life's a laugh when you complain about
The way that I give all I have to give
You say you want more, you can't sustain without
You wanna live but you don't know how
Over-thinking, smoking, drinking
You're in my head, it's time for bed
One word, another, I can be hollow
When you say goin' away
Cut you in half, see how you feel without
I want you to live but you don't know how
Am I gone? I want to be reborn
Thought I was in love, tell me was I wrong?
You know we were wrong together
Ain't it funny? They say it's
sunny
And come the cloud, inside out
Water bed in my head
It's pleasant waiting, it's pleasant hating
They say it's fine and then come the storm
No memory of ever feeling warm
I don't mind the rain and such
But I miss the warm, the warm of your
You know we were wrong together
You know we were wrong together
You know we were wrong together
You know we were wrong together
Together
Together
Together
