

# Let It Rain

## Living Things

Babe, why are you still inside?  
Why don't you come outside?  
Relieve your pain  
Time, we've been killing time But I don't mind  
The city's got me down  
And our glory days are over  
Yeah, our glory days are gone Let it rain, let it rain  
I know coming down can hurt  
And tonight is the night  
Where we leave it all behind 'Cause I don't believe that they can wait  
The sky's going black, let's celebrate  
Let it rain, let it rain  
I know, coming down can hurt Lies, we've been telling lies  
One more's around  
In this sleepless town  
And our glory days are over  
Yeah, our glory days are gone Let it rain, let it rain  
I know, coming down can hurt  
And tonight is the night  
Where we leave it all behind 'Cause I don't believe that they can wait  
The sky's going black, let's celebrate  
Let it rain, let it rain  
I know, coming down can hurt And our glory days are over  
Yeah, our glory days are gone Let it rain, let it rain  
I know, coming down can hurt  
And tonight is the night  
Where we leave it all behind 'Cause I don't believe that they can wait  
The sky's going black, let's celebrate  
Let it rain, let it rain  
I know, coming down can hurt
