

# Cloud Of Stink

Biffy Clyro

Dance if you wanna dance, if you wanna sweat  
Sweat if you wanna smell, go do it alone  
Fuck if you wanna fuck, if you wanna cum  
Sleep if you wanna sleep, talk more in the morn' Look up to the sky, is it still good to feel alive?  
Well I can dance on top of a hurricane This combination will make it's way round  
Congratulations on marrying this clown Swing if you wanna swing, hanging on a rope  
Burn if you wanna bur, do it on your own  
Cry if you wanna cry, acknowledge your heart  
Wish if you wanna wish, the only way is up Blame it on the world, visit them one and all  
You have to comprehend what your heart says This combination will make it's way round  
Congratulations on marrying this clown There's a black mold on my frazzled lungs, it whistles  
My throat is gone, I'm still holding on but I don't have long  
No I don't have long 'Cause it goes on and on and on and on  
And on and on and on and on  
It whistles (Let go) 'Cause it goes on and on and on and on  
And on and on and on and on  
It whistles (Let go) Dance if you wanna dance, if you wanna sweat  
Sweat if you wanna smell, go do it alone  
Fuck if you wanna fuck, if you wanna cum  
Sleep if you wanna sleep, talk more in the morn'
