

Teach Me Tonight

Stevie Wonder

Did you say that I've got a lot to learn
Well, don't think I'm trying not to learn
Since this is the perfect spot to learn
Come on, teach me tonight Starting with the ABC of it
Get down to the XYZ of it
Help me solve the mystery of it
Teach me tonight The sky's a blackboard high above you
And if a shooting star goes by
I'll use that star to write 'I love you'
A thousand times across the sky But one thing isn't very clear, my love
Teachers shouldn't stand so near, my love
Graduation's almost here, my love
You'd better teach me tonight
Come on, teach me tonight The sky's a blackboard high above you
And if a shooting star goes by
I'll use that star to write 'I love you'
A thousand times across the sky But one thing isn't very clear, Stevie
Teachers shouldn't stand so near, my love
Graduation's almost here, my love
You'd better teach me tonight
Come on, baby, come on, teach me tonight Yes, I will
Oh, baby baby baby
Come one, teach me tonight
Teach me, teach me
