No Problems

NOFX

I've got no problemsSitting by yourself
No friends are near
You got a needle in one hand
And in the other one a beerYou can't cope with life
You can't even get up
Who's gonna help you?
You've got to pick yourself upI've got no problems
I've got no problemsI've got no problems
I've got no problemsI've got no prob
I've got no problemsI've got no prob
I've got no problems
