# Driveway

## Boxelder

If you're looking out your window
And you say you're gone
And you're staring at the ceiling
And where we're fromRemember when you wake up
Don't forget, turn out the light
'Cause I'm looking out my window
For you every night, ohDid you have a thought
Did you remember what
And if we go sailing
Down the old oh frontIf you're looking out your window
When you ride away
And you're staring at the ceilingTo try and get away
You told us to decide
What we want today
But I don't know, ohDid you have a thought, oh
Did you remember what
And if we go sailing
Down the old, oh front, oohDid you have a thought oh
Did you remember what
And if we go sailing
Down the old, oh frontDid you have a thought
Did you remember what
Did you write a letter
Did you not forget her
