

# Soft Coda (Nedry remix)

## North Atlantic Oscillation

Looking to the glide of your hands / With their history quenched  
No explainable source / For the depths to cite  
Floating on the peaks of your wake / That the ocean took back  
Greedy for a theme / And your kindness as well  
No forcefield acts on bones inside / You said in a soft coda,  
I'm not yet done  
Everytime your legacy chimes / It's a jubilee  
And a funeral march / And the question why  
This would be the day that you came / To our revelling town  
To ignite our minds / There would be different tears  
No forcefield acts on bones inside / You said in a soft coda,  
We almost won.
