Seal It Forever

Sandra

Can I find the words to say, how I feel tonight?
We always change, we can turn back time,
Just look at me, I'm so scared,
Would you be here, if I was sad,
Would you do?I wanna be your guiding light,
wanna stay right by your side,
And seal it forever with love...
I wanna say how much I care,
Wanna tell you I'll be there,
And seal it forever with love...Will you let me down someday, will the heart get burned?
I count on you, we must leave and learn,
Just look at me, I love you,
I still believe in what we do,
I count on you...I wanna be your guiding light,
Wanna stay right by your side,
And seal it forever with love...
I wanna say how much I care,
Wanna tell you I'll be there,
And seal it forever with love...Babe, I know that you're mirrored in my eyes,
A long time I was wondering why,
Maybe I was foolish and shy,
But now I know, that it's true love,
Love I can't deny...Now my life is in your hands,
Seal it forever!I wanna be your guiding light,
Wanna stay right by your side,
And seal it forever with love...
I wanna say how much I care,
Wanna tell you I'll be there,
And seal it forever with love...
