

Kept Docile

Defiance

just another way to keep people docile
by feeding them abstract rewards depending on who is in power
by twisting and changing the bileball to mean whatever they decide
the oldest tool of oppression to play on people's conscience obey the rule accept the horror in return for the
afterlife
suffer now obey now or the debt will be payed for eternity god's so-called word is nothing more than a lie
it is the voice of government speaking to ignorance
as the church influence grows our freedom falls away
by enslaving our minds to the infamous lie there is no hope for
resistance wills are succumb to the powers above
and conned by the blatant stupidity of a god
smash the churches, ignore the word of god
then the road to freedom will begin
