Everybody Loves You

The Muffs

On the way out I could see
Ugly little me
and I'll say that I am crushed as crush could be
you messed me up you seebut if you loved it and felt it
you carry us you do
I could never say it but it's true
everybody loves youand I could do a lot I always did and I know you did too
say goodbye and I'll go and now I know
I hope you're feeling goodbut I'm no liar or crier but I know when it's through
I could never say it but its true
everybody loves youwhy'd you go now where'd you go I think I'll never know
If you go now I can't take it but I think that I can sayyou want it, and felt it you carry us you do
I could never say it but it's true
everybody loves you
everybody loves you
everybody loves you
