You Will Be Loved

Nicole Scherzinger

Sometimes we give it all up just for love
Just to find out that it wasn't love at all sometimes, sometimes
Sometimes you want somebody in our bed
So bad we give up ourselves sometimes, sometimes
So it ain't nothing wrong with thinking with our hearts
And letting someone near, the storm might break you down
But you'll get up again and learn from your mistakes
Forgive but don't forget, don't let it hold you back
'Cause sooner or later
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
Sometimes it feels like everything's going wrong
And we feel like it's all our fault sometimes, sometimes
Sometimes we feel like when it's all said and done
Like all of the love is never gonna come sometimes
So it ain't nothing wrong with thinking with your hearts
And letting someone near, the storm might break you down
But you'll get up again and learn from your mistakes
Forgive but don't forget, don't let it hold you back
'Cause sooner or later
You will be loved, be loved, be loved
You will be loved, be loved, be loved

You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
Sometimes you're up, sometimes you're down
Sometimes you feel like you're stuck on the ground
'Cause of love, 'cause of love
Sometimes you're down, sometimes you're up

Just at the point when you're 'bout to giving up
On love, on love, on love
Sooner or later you will be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved
You will be loved, be loved, be loved, yeah
You would be, you would be loved
You, you would be, you would be loved
You, you would be, you would be loved
You, you would be, you would be loved
You, you would be, you would be loved
You, you would be, you would be loved
