Fade Away

Oasis

When I was young, I thought I had my own key I knew exactly what I wanted to be Now I'm sure you've boarded up every doorLived in a bubble days were never all ending Was not concerned about what life was sending Fantasy was real, now I know much about the way I feelI'll paint you the picture 'Cause I don't think you live round here no more I've never even seen the key to the door We only get what we will settle for While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away Away, away, they fade away, away, awayNow my life has turned another corner I think it's only best that I should warn you Dream it while you can, maybe someday I'll make you understandI'll paint you the picture 'Cause I don't think you live 'round here no more I've never even seen the key to the door We only get what we will settle for While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away While we're living, the dreams we have as children fade away Away, away, they fade away, away, away They fade away, away, away, fade away, away, away
