

Here

Dripping Goss

While talking reason with you
I saw a strong resemblance that I've never seen before
Out on the plains, life is like a chain goes on
Within you and without you
The sooner you learn that you'll be all right here

Soon it be all over, soon it be all over
Soon it be all over, gotta get away

While smoking refer with you
I saw a strong resistance that I've never seen before
Out on the plains, life, life is like a chain goes on
Within you and without you
The sooner you learn that you'll be all right here

Soon it be all over, soon it be all over
Soon it be all over, gotta get away
