

# New Horizons

## Labyrinth

Another day is dying  
Moonlight' shining high  
Peace is winding all around  
I look up to the sky  
a sudden blazing light  
shaking my soul to the ground Across the seas, around the hills and over  
I can feel all your love ...  
Reflections of a wasted love in my eyes  
unchaining from my heart Tell me now Fathers of the Sky  
why a love should die  
you have damned my life  
try to tell me why ... Another day is dying  
Moonlight' shining high  
Peace is winding all around  
Despite of Master's will  
Against this destiny  
I will find the way to try ... Across the seas, around the hills and over  
I can feel all your love ...  
Reflections of a wasted love in my eyes  
unchaining from my heart Tell me now Fathers of the Sky  
why a love should die  
you have damned my life  
try to tell me why ... [SOLO: RAIN/TH-RSEN/TOGETHER] Tell me now Fathers of the Sky  
why a love should die  
you have damned my life  
try to tell me why ...  
To new horizons fly ... [Magnani C., Cantarelli A., Rubulotta F.]
