Locked On

Ben Foster

Everything you heard, I did and maybe then some, okay
Does it make you happy and now is it out of the way?
Everything you heard, I done and probably then some, okay
Does it really matter, of course, I took it all the way(What more can I say)
Locked on, what's the deal?
Faded rock star, push and needle
You don't know, well that's alright
You do your thing, I'll live my lifeEvery word you read is true, baby, I won't deny
Don't you push me over, I ain't even finished my ride
Every word you read is true and maybe that is a lie
Strap session closing and I am going out of my mind(What more can I say)
Locked on, what's the deal?
Fallen rock star, push and needle
You don't know, well that's alright
You do your thing, I'll live my lifeLocked on, what's the deal?
Faded rock star, push and needle
You don't know, well that's alright
You do your thing, I'll live my lifeLocked on
Locked onEvery song I wrote, I meant what I said at the time
Yeah, I spent some time, well looking death right in the eye
Every song I wrote, I captured a fragment of time
Dying a little bit makes you appreciate life(Nothing more to say)
Locked on, what's the deal?
Faded rock star, push and needle
You don't know, well that's alright
You do your thing, I'll live my lifeLocked on, what's the deal?
Fallen rock star, push and needle
You don't know, well that's alright
You do your thing, I'll live my lifeLocked on
Locked on
Locked on
