## AFI

I can feel you waitin' for me  
When the sun retreats to the hills and I  
Below the blanket of a burnin' sky  
Wrap myself within Embraced by dead leaves as the rain leaves  
Trails of black down my face, and I  
Creep through the twilight to that hidden place  
Beyond the lonely I'll meet you, tonight in the whispers when no one's around  
Nothing can stop us now  
Tonight in the whispers where we won't be found  
Nothing can stop us now Well, I can feel you dreamin' of me  
And the time when our steps are retraced and I  
Creep through the twilight to that hidden place  
Beyond the lonely I'll meet you, tonight in the whispers when no one's around  
Nothing can stop us now  
Tonight in the whispers where we won't be found  
Nothing can stop us now Tonight in the whispers when no one's around  
Nothing can stop us now  
Tonight in the whispers where we won't be found  
Nothing can stop us Well, I can feel you dreamin' of me  
Well, I can feel you dreamin'  
Well, I can feel you dreamin' of me  
Beneath a dream, beneath a dream Well, I can feel you dreamin' of me  
Well, I can feel you dreamin'  
Well, I can feel you dreamin' of me  
Lost in a dream, lost in a dream Tonight, in the whispers when no one's around  
Nothing can stop us now  
Tonight in the whispers where we won't be found  
Nothing can stop us now Tonight, in the whispers when no one's around  
Nothing can stop us now  
Tonight in the whispers where we won't be found  
Nothing can stop us
