

Wild Life

Jack & Jack

Wild life, wild life

Yeah, no tell what I might do
When I'm i the right mood
You know me
I'm all up in the party like a V.I.P.
And everything is looking better from my p.o.v.
Nocturnal animals, we don't sleep
And I'll probably forget you, Cee Lo Green
I'm sweating like the Amazon, a hundred degrees
And that backs house bigger than family tree
So drop that thing like a fumble
Like ya talking to the king of the jungle
We got lions, tigers, bears, oh my
And every single ones
Turnt up, yo
I don't want anybody bringing the vibes down
So if you wanna wind down
Oh, look what I found
A little something that will keep you awake
Until the break of dawn
Don't be afraid to get rowdy

I'm not done yet
Must be the motto
It's 2AM
Let's hit the throttle
Drinking my cup
Hands going up
Let's hit the dance floor and get

Wild life, wild life
Wild life, wild life
Wild life, wild life

Yeah, everybody going crazy on the dance floor jam packed
Got a couple bands back from the bank on my last trip like I ransacked
Everybody hanging like a string from tampax
Yes, my bitches back from the Amtrak
You ain't ever heard of flow quite like this

Everywhere I turn to tyou iced out wrists
She might be German, she might be Swiss, damn
And I'm feeling pretty hectic, lights all around
Good thing I'm not epileptic
I'm kinda confused like I'm measuring in metric
Talking shit, you better take it back, interception
Like the forests are blazing
Get the wild life jumping like an animal rave
I know your parents said they miss the good old days
But things change

I'm not done yet
Must be the motto
It's 2AM
Let's hit the throttle
Drinking my cup
Hands going up
Let's hit the dance floor and get

Wild life, wild life
Wild life, wild life
Wild life, wild life

Hey you, come here girl
Party with me (party with me me)
You know it's going to be a wild night (so wild)
Move that body to the melody (melody)
I could show you how to live a wild life (wild life)
Ain't gotta spend a dime, it's free (it's free)
You know it's going to be a wild night (let's go)
Doors open, you don't need a key (no key)
Show you how to live a wild life (wild life)

I'm not done yet
Must be the motto
It's 2AM
Let's hit the throttle
Drinking my cup
Hands going up
Let's hit the dance floor and get

Wild life, wild life
Wild life, wild life
Wild life, wild life
