

# My Best

## Apls

We scream and shout and try to make it last  
Though it didn't work out, I don't love you any less  
My lover or friend, I won't ever tell  
Our secret's safe, an unspoken citadel  
And in these broken times, well, it's so easy to forget  
so I sing to remind, upon my shoulder you can rest  
'Cause I'll always give you my best  
A sidewalk's path leads me to you  
Though we don't look back, we hold on to a truth  
And in these broken times I promise I will not forget  
Though you're not mine upon your shoulder I can rest  
'Cause you always give me your best  
It's like I promised you  
It's like you never left  
It's like you never left  
I know it's been so long, I can't ever seem to forget  
All it takes is a song and I could swear I hear your steps  
Down the hall that goes up past that leaves an ache, it's never left  
'Cause I gave you my best  
It's like you never left  
It's like you never left  
We scream and shout and try to make it last
