Enjoy The Ride

Vicci Martinez

Now here we go, again
Back to where the problem started
but this time my heart is open
and i carry every good intention
so tell me, your secrets,
and ill hold you in my arms and listen
theres beauty in the imperfections

and close your eyes
my dear
turn the voices off inside your head
relax your mind
breathe in
start living for the present moment
cuz all we have is right now
and you may not ever see me again
so let go of any expectations

take it slow
and always
enjoy the ride
cuz what we'll be, will be
we cant hide

la la lo la la lo la la lo la li
la la lo
lla la lo
lla la la lo la li

and then well find
ourselves...
caught inside the web were spinning
to scared to ask, for help
go on with this way of living
andl never find our strength
cuz its easier to play the victim
but loving is about forgiving, you

so take it slow

and always
enjoy the ride
cuz what we'll be, will be
we cant hide
and free yourself
from fear
and sleep tight
and only then the truth you seek
you'll finally find

la la lol la la lo la la lo la lo li
la la lo la la lo
la la lo li
la la lo- la la lo-- la la la lo li

singin
la la lo la la lo la LO LI!

come take it slow
and always enjoy the ride
who well be, will be
cant hide
and free yourself
from fear
and sleep tight
and only then the truth you seek,
you finally find

you'll finally find... ohh

la la lo la la lo
la la lol la li
la la lo
la la lo
la la lo
la la la lo li
la la la lo
la la la lo
la la la lo li
la la la lo
la la la lo li
