

Time Is...

Dc Talk

Time is tickin' away, time is tickin'
Tick, tock
Time is tickin' away, time is tickin'
Tick, tick, tick, tock, tickin'
Let's go, here we go, everybody
Let's go, here we go, everybody
Let's go, here we go, everybody
Let's go, check it out
You got a gift and you best start using it
'Cause if you don't you're gonna wind up losing it
Just like the brother who buried it deep
The task was simple but the price was steep
We got a mission while we're on this earth
We need to tell people 'bout our second birth
Get busy like a school boy makin' an A
'Cause time my brother is tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Right now is the time that we gotta get with it
The gift that He's given ain't just an exhibit
But a tool that He's given us to use for His sake
And just as He's given He can surely take
The signs of the times are dropping like flies
The cries of the people around us imply
They're lookin' for an answer that we already know
But time is definitely on the go
All the money in the world
Can never stop the hands of time
And a wasted day in your life
Is more than a crime
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, time is tickin'
Time is tickin' away, time is tickin'
You got a gift and you best start using it

'Cause if you don't you're gonna wind up losing it
Get busy like a school boy makin' an A
'Cause time my brother is tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin' away, tick, tick, tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is tickin', it keeps on tickin'
Your time is tickin' away
Time is
Whoa, wait a minute
