

Somehow

Autumn Fire

I cannot pretend
That every now and then
I think about you
I think about youEver since the day
You left and went away
I think about you
Think about youI can't let go
You make me wholeIt pulls me down
Not a soundAlone with all my enemies
I need to find the enemy somehow
I'm open now for anything
I can't remember anything somehowTried to clear my mind
And leave it all behind
I think about you
Think about youRemembering the day
You took my breath away
I think about you
Think about youI can't let go
You make me whole
Pulls me down
Not a sound-Chorus-I can't let go
You make me wholeIt pulls me down
Not a sound-Chorus 3-
