

Coffee Kisses

Popsie

You some guys got it and some guys don't
We had a date at Wayne's caf
We didn't talk much, he just hypnotized me
He made me start thinking 'bout the cozy long nights
And to drink champagne by the candle lights
As he poured down cream in my coffee cup,
He said Oh sweet sugar, I like to eat you up

Chorus:

Crush without kisses is like coffee without cream
And coffee without cream is like a crush without kisses

Coffee kisses

Like a flower I blossomed beneath his kiss
I surrender to the most indescribable bliss
He said Take my number and call me any day
Oh sugar honey, I'm just a phonecall away
He made me start thinking 'bout the cozy long nights
And to drink champagne by the candle lights
As he poured down cream in my coffee cup,
He said Oh sweet sugar, I like to eat you up

Chorus x 2
