

# Wild Child

## Elijah

one step over mine  
to let go in time

brown eyes far away  
forget that I called

oo-oo oo-oo  
oo-oo oo-oo

best friend love of mine  
please wait this time

I feel so damn scared  
how did I get here

oh my love  
are you scared  
are you scared

well I try  
do you care  
do you care

am I the wild child in disguise  
again  
oh my love don't let me in

three rings wake me up  
so I can feel fine

savior it might be  
this time we'll pass

oh my love  
are you scared  
are you scared

well I try  
do you care

do you care

am I the wild child in disguise  
again  
oh my love don't let me in

lover don't be scared  
I'll wait right here

one more mountain to  
and we'll meet up there soon

oh my love  
are you scared  
are you scared

well I'll try  
do you care  
do you care

am I the wild child in disguise  
again  
oh my love don't let me in
