

# Recorded Inside A Pyramid

## Daughters

I wear my sickness like a wedding band  
I've been touching myself all day with a hammer and nail  
I'm the flat-footed-mule-faced-fucker the shit-bird-derelict-king  
I drew a portrait of how I think I'd look with my hands around my own throat  
If you could see me now...  
I have all the makings of a despicable man  
All the qualifications of your best friends  
"If that girl could see me now"  
Fingers like a bookmark reaching into my chest and saving that empty page  
If you could see me now...  
I am just a face connected to an appetite demanding self abuse  
I feed myself by the handful like your kids at a petting zoo
