

Wendy House

Chantal Kreviazuk

A child is born
A life begins
To take and hurt
A precious gift When i'm along
it all hits home
Don't it all just seem a little much
When i'm along
it all hits home
Don't it all just seem a little much And the night gets further from the day
Take me to your wendy house to play A child is born
A life begins
To take and hurt
A precious gift When i'm along
it all hits home
Don't it all just seem a little much
When i'm along
it all hits home
Don't it all just seem a little much And the night gets further from the day
Take me to your wendy house to play When i'm along
it all hits home
Don't it all just seem a little much
When i'm along
it all hits home
Don't it all just seem a little much When i'm along
it all hits home
Don't it all just seem a little much
When i'm along
it all hits home
Don't it all just seem a little much And the night gets further from the day
