As The Doctor Talks

The Faint

all the doctor talk
of all the doctor trouble
all the time payed off
but there's a night to remember, when the quarters stopped
diving in the cup
dr. back to work stumbling through the hall
he made it to a room
a lady old and calloused
is staring back at him
he doesn't think that she notices
as the dr. talks
his slurring causes trouble
they breath a bit of breath
once the surgery's over
hey daniel eckerson

where's your sadness
your apathy has mothers crying
but it's nothing 'til it comes to a court who finds a hold in the defense
he stays when the cannot prove beyond a doubt
a word of what was said
and the dr. choked
his hearing started monday
all his time ran out
since the media ran it
hey daniel eckerson
where's your sadness
your apathy has left a knife in her gut.
