

Elephant's Bed

Desert Noises

It's been three days of seen my eyes

Don't need another discuss

Pull my head from the sky

A weekend of lost my tune

Don't need to play the fool

If you're kicked out of the poolSilence at the foot of the elephant's bed
I don't believe everything that I've readFrom the mental I know what you took

I could read you like an open book

You're never of your hub

Why are you such a pain

I don't mean to complain

But you're driving me insaneSilence at the foot of the elephant's bed
I don't believe everything that I've readYou're looking for a discuss

I will give a white dress for you

I don't mean to be mean

Do you know what I meanI would climb any wall in your house

Just for you darling

But too reach to see

Do you know what I mean
