

# Suffocate

## Draven

Hate all the blood on my hands  
And the sins that bleed from my soul  
Take, I take it all away make it go away  
    Stand up for bein'  
    The last one to control  
    What you're seeing  
    It starts from me  
    And the last to know  
    Stand up for bein'  
    The last one to control  
    But what you can't see is bein'  
    The last one to know  
    Fade into a dream  
Try and save me from myself now  
    Save me from myself now  
    Fallen from the world  
    If I could ever breathe in the air  
    Maybe then I wouldn't suffocate  
    Face all the things that were  
    Real to me long ago to save my  
    Name, I never thought it would  
    Be such a long way to fall  
    Stand up for bein'  
    The last one to control  
    What you're seeing  
    It starts from me  
    And the last to know  
    Stand up for bein'  
    The last one to control  
    But what you can't see is bein'  
    The last one to know  
    Fade into a dream  
Try and save me from myself now  
    Save me from myself now  
    Fallen from the world  
    If I could ever breathe in the air  
    Maybe then I wouldn't suffocate  
    Fade into a dream  
    See me from myself

See me from myself  
Fade into a dream  
Try and save me from myself now  
Save me from myself now  
Fallen from the world  
If I could ever breathe in the air  
Maybe then I wouldn't suffocate  
Stand up for bein'  
The last one  
Stand up for bein'  
The last one to fall  
Stand up for bein'  
The last one
