

# Face the Day (Blues Mix)

## Great White

I don't want to face the day the day, today  
Long nights leave me stranded  
Black visions, danger signs  
No love- I need protection  
Feels like I'm on a production line  
Daggers of dawn, cold hearted day  
Why does it have to be morning?  
Cover my head, stayin' in bed  
Too late the luckless warning  
Outside the screaming city  
Red lights, hungry eyes  
Sucks like a space invader  
The vacuum of its lies  
Stealin' my strength, stealin' my time  
It's raining in a world of traders  
Let me keep on sleeping  
Forget that I'm alone  
One day of faceless living-  
is twenty-four hours too long  
I don't want to face the day  
Give me the night, it's more forgiving  
Hold back the light from my eyes  
Please stay invisible darkness  
can't see the tears that I cry  
I know it's comin', loaded with nothing  
Trapped in a tunnel of time  
I don't want to face the day  
The day, today
