

Dirty World

Emile Haynie

You're so beautifully broken
I celebrated your throne
Your little heart just can't open
Can't open at all, can't open at all I don't know what made you so honest
But all you heard from my love
If you could just dull all of your darkness
I'd hold you above, I'd hold you above So come on just tell me how bad it hurts
I can make it work
We live in this dirty world
Might as well get dirty, girl
But if you want to hide your sorrow
Well you can do that on your own
We live in this dirty world
All alone, we're all alone
You know you're all alone We're dying every day on the answer
And I know you know that's true
But I see my reflection in your eyes
So I stand beside you, I stand beside you And I don't know the hell from your past life
But all I got to offer is my own
Tryin' to hold you up in that bright well
Still I watch you fall, still I watch you fall So come on just tell me how bad it hurts
I can make it work
We live in this dirty world
Might as well get dirty, girl
But if you want to hide your sorrow
Well you can do that on your own
We live in this dirty world
All alone, we're all alone
You know you're all alone So come on just tell me how bad it hurts
I can make it work
We live in this dirty world
Might as well get dirty, girl
But if you want to hide your sorrow
Well you can do that on your own
We live in this dirty world
All alone, you're all alone (Two more heart to get to the street)
You're all alone
You're all alone (It's not very clear on the map)
You're all alone

You're all alone (But I think)
You're all alone (It's right next to this park)
You're all alone
You're all alone (I just made a wish)
You're all alone
I made it for my love
I'm fond of him
But I don't understand him
