# Infekshun

## Ron Wood

She once called me a tender man
She was sorry she spoke
She found out later
I was not true to that word
Well, woman had a wise concern
No way.
You are my infection,
Can never tell where you've been
You are my infection,
I can't lose you out of my life

Baby was hungry
Baby was always acting bored
?
Well I found a way to carry on
You are my infection, can never tell where ya been
You are my infection, I can't get you out of my life

You killing all the life here
But it's really to turn it up
(not too sure about these two lines)
You saved me all a bad break
But I've been hanging around for more
Don't tell me you're sorry
You are my infection, things'll never be the same
You are my infection, so don't come round again

Bad dreams, nightmares are with me all the time
But when I catch you, I'll need you so hard
You'll be running like a bat out of hell
You'll be running from the dark like ?
Burning, burning
Make sure those bad times get back to you some day
You are my infection, things will never be the same
You are my infection, so don't come round again

You are my infection, things will never be the same
You are my infection, so don't come round again
You are my infection, I can't get you out of my life
You are my infection, so don't come round again

You are my infection, I can't get you out of my life
I can't get you out of my life
