One Thing

Nothingface

This is your one chance at my one thing
So take it all back nowGonna take this back, my one thing
You hear what you want I hear you
I can feel your cut, it's coming
Do you want to fuel my one thing
God blind these eyes please kill my mind
And I take it down cause it's gonna be my thing
Take this backThis thing, my thing, one thing, take it all back from meI'll do what you want you scare me
And you puch my back cause you know my one thing
I can feel you now my thinking
Take this back my evil one thing
Take this backThis thing, my thing, one thing, take it all back from meYou see in me, what I have left for you
You see in me, why you think I left this for you
You see in me, now that it's over
You see in me and the farmer says to his garden, you're gonna die soon
And the doctor says to his patient, you're gonna die soon
And the leader says to his nation, you're gonna die soon
And the God says to his creation, you're gonna die nowWhy cant you try to take this one thing, my thing take it
And I can't stick these hands up well
I can be why me got me, I can't fuck this shit
My one thing, my one thing
