

# Shine So Bright

**Teddy Thompson**

I wanna be a huge star  
That hangs out in hotel bars  
I wanna wake up at noon  
In somebody else's room I wanna shine so bright it hurts I wanna be death bed thin  
Never realize the state I'm in  
With my head in the clouds  
And be followed around by crowds I wanna shine so bright it hurts I wanna be high strung  
Make people wonder what they've done  
No one will talk back  
'Cause you'll never know when it might snap I wanna shine so bright it hurts  
I wanna shine so bright it hurts  
I wanna shine so bright it hurts
