Cowboy Up

Jason Meadows

If you're Gonna run with me
You better cowboy upI was thirty seconds in to an ninety second love affair
Hell I got my spurs dug in and my hand high in the air
I was making my moves just right
I was taking home the buckle tonight
When she spoke up and said here's what its all aboutIt takes more than just a cowboy to run with me
You need more than just a belt, boots, buckle, and jeans
You're losin' your grip
Your ropes startin to slip
well boy you aint so tough
If you're gonna run with me better cowboy upIt took a minute to figure out where I went wrong
By the time that I got dusted off, she was gone
I picked my hat up off the ground
I knew that I had been shot down
I remember she said here's what its all aboutIt takes more than just a cowboy to run with me
You need more than just a belt, boots, buckle, and jeans
You're losin' your grip
Your ropes startin to slip
Well boy you aint so tough
If you're gonna run with me better cowboy upoh, cowboyIt takes more than just a cowboy to run with me
You need more than just a belt, boots, buckle, and jeans
You're losin' your grip
Your ropes startin to slip
Well boy you aint so tough
If you're gonna run with me better cowboy up
Well if you're gonna run with me better cowboy up
