

Leave Me Alone

M2M

Leave me alone, stop calling me at home
Where did you get my number anyway?
Don't write me e-mails, don't knock on my door
Don't you remember, you didn't love me no more? Now it's over, nothing called you and me
It's over, why can't you see?
What I'm trying to say is get out of my way Yeah, it's over nothing called you and me
It's over, why can't you see?
What I'm trying to say is get the, get out of my way But I'm not your girl, not even your friend
What makes you think I wanna try again
And don't buy me roses and don't even try
And remember, big boys they don't cry Now it's over, nothing called you and me
It's over, why can't you see?
What I'm trying to say is get out of my way Yeah, it's over nothing called you and me
It's over, why can't you see?
What I'm trying to say is get the, get out of my way I'm tired of hearing my friends say
Do you still care
That you wanna come back into my life
Well, I just want you out of there Yeah, it's over, nothing called you and me
It's over, why can't you see?
What I'm trying to say is get out of my way Yeah, it's over nothing called you and me
It's over, why can't you see?
What I'm trying to say is get the hell out of my way
What I'm trying to say is get the hell out of my way
