Total Eclipse Of The Moon

Enigma

Miles away from light at noon
Total eclipse of the moon
Many reasons to believe in life
Just listen what it's telling you
Come and have a look inside
Total eclipse of the moon
Don't be childish, you don't be so cruel
I'm feeling just lonely without, without you
I can see the wide horizons
But debts have to be paid
Our ways will cross again someday
Believe and come back to you, may see you soon
Time doesn't say hello
Total eclipse of the moon
Many nights in our lives before
Dreaming to be just beside, beside you
Total eclipse of the moon, I'll see you soon
