You And Me Song

The Wannadies

Always will we find I tried to make you love 'Til every thing's forgotten I know you hate that Bop badada, bop bop bop Bop badada, bop bop bop bopAlways will we fight Kiss you once or twice And every thing's forgotten I know you hate that I love your Sunday song The week's not yet begun And everything is quiet And it's always You and me, always and forever You and me, always and forever Bop bop bop bop It was always you and me, always You tell me I'm a real man I try to look impressed Not very convincing But you know I love itI know we watch TV 'Til we fall asleep Not very exciting But it's you and meAnd we'll always be together You and me, always and forever Bop bop bop bop It was always you and me, always and forever You and me, always and foreverBop bop bop bop It was always you and me, always and forever You and me, always and forever Bop bop bop bop
