Angel

Isabela Moner

Verse 1
There was once a girl I knew.
Remember when her brown eyes were in blue?
You make me feel like I am in a movie
What is real often fades away.

Chorus
Like an angel, you are watching over watching over me.
Like the heavens, you are opening and smiling down on me.
I am wrapped in your warm embrace, I'm not afraid to fly with an angel by my side.

Verse 2
Everyone has someone who
Takes their dreams, and makes them come true.
You do that for me. Help me fulfill me every need
'Till I can't want for more.

Chorus
Like an angel, you are watching over, watching over me.
Like the heavens, you are opening and smiling down on me.
I am wrapped in your warm embrace, I'm not afraid to fly.

Bridge
And when it rains, I'm not afraid it'll dampen my window.
All of the fears wash away.

Chorus
Like an angel, you are watching over, watching over me.
Like the heavens, you are opening and smiling down on me.
I am wrapped in your warm embrace, I'm not afraid to fly
x2
With an angel by my side.
