

Peanuts

The Police

It's all a game
You're not the same
Your famous name
The price of fame Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero Don't want to hear about the drugs you're taking
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck they're raking You sang your song
For much too long
There's something wrong
Your brain is gone Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero Don't want to hear about the drugs you're taking
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck they're raking It's all a game
You're not the same
Your famous name
The price of fame Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero
Oh you're just a fallen hero Don't want to hear about the drugs you're taking yeah
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck they're raking Don't want to find about the drugs you're taking
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck they're raking Don't want to find out what you've been taking
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck they're raking Don't want to find out what you've been taking
Don't want to read about the love you're making
Don't want to hear about the lives you're faking
Don't want to read about the muck Peanuts, peanuts
Peanuts Oh no no

Oh no no
Oh no no
Oh no no
Oh no no oh
