

Love Is

Jah Cure

Yeah you know, Rasta live
Universal sign of love
Love is the answer my friend
And love is the only way Yeah, true love you can find yourself
And call a true identities
Love your brother, love your sister
Love one another the universal sign
I'll take it from here Love is much more to life than just words
Love means much more than to say you love
Love is call on me brother
Love is call on me sister When you love someone, love from the heart
'Cause love is the start, yeah
Love is the answer for every question
Just ask yourself why, why? Love is the key to open the door
When they close in your face
Love shows you the way when you are lost, lost
And can't find your way Love is much more to life than just words
Love means much more than to say you love
Love is call on me brother
Love is call on me sister Love is the only thing we have to share
Don't you forget that I hope you hear
Sending my message to you out there
I hope you get it clear, yeah Do not mistake my
And mistake every sound
Whenever you see my face
Always a smile contracts a frown Love is much more to life than just words
Love means much more than to say you love
Love is call on me brother
Love is you better call on me sister Love is much more to life
Love is than just words
