

Cold Light

Operators

Put your heart in the hands of the city
Working hard when you're not around
But oh, you sure look pretty
When your feet were moving on the ground
Some people born and they never wake up
Some people born and they got it all
But me, I just can't stop, no
I can't stop until I really fall
Go home
Go home
Baby, it'll be alright
Put your life into the cold light
Put your life into the cold light
So do you, do you wanna dance?
Do you wanna take the long way home?
And do you stop, entranced, my love?
You know I could never be alone
Go home
Go home
Baby, it'll be alright
Put your life into the cold light
Put your life into the cold light
Go home
Go home
Maybe it'll be alright
Put your life into the cold light
Put your life into the cold light
Oh, you can't go home
Oh, you can't go home
