

Save Me (feat. Eva Blom)

Endymion

Save me!!!!

The sunshine is falling upon my face

I'm walking into nowhere with the distance as my friend

Love is enough because you couldn't find

and all I cared about was good-bye

there's nothing here for me to stay

the stars will lead me and swear

Save me!!!!

Save me!!!!

Save me!!!!

Love is enough because you couldn't find

and all I cared about was good-bye

there's nothing here for me to stay

the stars will lead me and swear

Save me!!!!

Save me!!!!
