

# Apes In Capes

## The Pop Ups

Apes in Capes Jimmy drew a circle then he drew another one eyes that wink  
Molly drew a moon, turned it to the side now he smiles at me  
Billy took two triangles put them in the middle now it's a nose  
Janey drew some ovals hands and feet and fingers and toes Using shapes, they drew apes  
they drew apes, using shapes Janey drew a line, drew it really fine right down to his feet  
Molly drew another line down the other side and it looked so neat  
Ben took a pen he connected the ends and made a triangle using shapes  
they made apes  
wearing capes  
apes in capes Lotsa curvy lines and a rectangle and you've got a tree  
circle in the sky and a few straight lines and you've got the sun  
three zig zags lying side by side and you've got the sea Using shapes  
they made landscapes  
for their apes  
apes in capes They drew ovals, little circles in a bunch  
Their apes were getting hungry time for lunch so they drew grapes,  
for their apes  
apes in capes  
in landscapes Fun with Shapes  
Apes in Capes
