

# Blush

## Plumb

When you look at me I start to blush  
And all that I can see is you and us  
Oh baby, I'm so afraid to be in love  
With you, with you Wanna be in love with only you  
Wanna watch the sky turn gray and blue  
I wanna know the kiss that's always new  
I wanna be in love with only you, just you When stars are falling dark  
We'll light the way  
Will hit the ground and fall  
Into the shade I'll light the night with fire  
And run away  
With you, with you Wanna be in love with only you  
Wanna watch the sky turn gray and blue  
I wanna know the kiss that's always new  
I wanna be in love with only you I wanna be in love with you  
I wanna be in love  
I wanna be in love I wanna be in love with you  
I wanna be in love  
I wanna be in love  
I wanna be in love with you Wanna be in love with only you  
Wanna watch the sky turn gray and blue  
I wanna know the kiss that's always new  
I wanna be in love with only you Just you, yeah  
Just you, yeah, just you  
I wanna be with just you, yeah  
I ain't got no more that's real
