World Clique

Deee-Lite

We don't need a clique
To make our clock tick
Our clique is the world
The world is our cliqueWe don't have to fit
In your fixed trip
Our clique is the world
The world is our tripWe don't need a clique
To make our clock tick
Our clique is the world
The world is our cliqueWorld clique, world clique
World clique, world cliqueSmall clique is like a jip in line
It happens all the time but it's limited
World clique is like a skip through time
It's fine and I'm digging itI don't have to squeeze
Just to appease your dream
My peace is the world
The world is a cliqueThe world is our clique
The world is a clique
World clique, world clique
