

All of That Love from Here

Wynonna Judd

I can see a cotton field
And old man working in the mill
I can see loadin the trunk
Of my old blue Oldsmobile I see the tears in my mamas eyes
When she kissed her baby goodbye
I can still feel all of that love from here I can see the cotton sheets
Theyre swingin in the wind out, swingin in the wind
I close my eyes and my mind flies
And Im right back home again, Im right back home And I get lost while Im chasing my dreams
I find my way cause my heart has wings
And I can still feel all of that love from here I was raised on loves foundation
The rock of ages goes unshaken
The faith and hope that was given to me
Is stronger than the blackjack tree My mama taught me how to stand alone
She let me go but she still holds on
And I can still feel all of that love from here I can see the cotton sheets
Theyre swingin in the wind out, swingin in the wind
I close my eyes and my mind flies
And Im right back home again, Im right back home And I get lost while Im chasing my dreams
I find my way cause my heart has wings
And I can still feel all of that love from here
I can still feel all of that love from here
